

RAM

2-4 Players

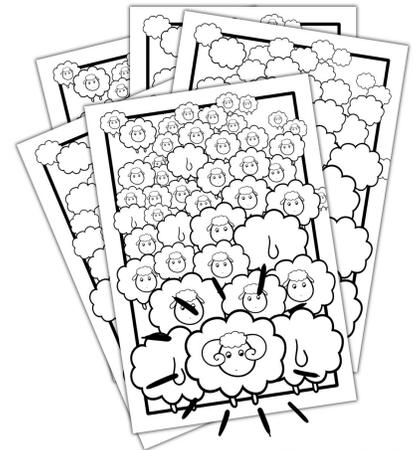

15 mins

RAM is a super fun and super easy game for 2 to 4 players. Simply print the 3 pages with 27 cards from the Game Pieces file on our website, cut the cards out and you're ready to play. If you are feeling a little crafty, check out the Extras for the RAM game on the website as well. There you will find simple and fun instructions on how to make a custom box for your game as well as make the cards more durable and realistic. Enjoy :)

The deck contains 27 cards depicting a herd of sheep.
7 of the cards also hide a ram amongst the sheep.

2 players:

Divide the deck between the two players. Hold the deck in your hands without looking at the cards. Take turns placing a card on the table, face up, visible to both players. When you notice a ram, hit the cards on the table and say 'RAM'. The player who did NOT notice the ram takes all the cards from the table. The player who finishes the cards in their hand first, wins.

RAM

3-4 players:

For 3 or 4 players we reverse the rules. Your aim is now to collect cards, not get rid of them. Divide the deck between all the players. Hold the cards in your hands without looking at them. Take turns placing a card on the table, face up, visible to all players. When you notice a ram, hit the cards on the table and say 'RAM'. The player who DID notice the ram and hit the cards takes all the cards from the table. The player who runs out of cards first, is out. Continue until three players have run out of cards and one remains - the winner.
